SKU:

Price: ₹18,500.00

Categories: Frame Slider

Product Description

Puig Frame Sliders 21218N Puig Frame Sliders consists of a central body made of polyamide (impact and abrasion resistant) and two pieces (front and rear) made of thermoplastic elastomer to absorb possible impacts with the rider. Its racing design has an aerodynamic character with the use of side wings that in turn have the function of absorbing part of the impact in the event of a fall given their conical configuration. To personalize the slider, the elastic parts (front and back) can be purchased in different colors. Protector compatible with all the references that mounted the Pro protector.

SKU:

Price: ₹32,000.00

Categories: Winglets

Product Description

Puig Frontal Spoiler Black 20522N Reinforce the Racing aesthetics and improve the aerodynamics of your motorcycle with the new frontal spoiler GP from Puig. The new GP spoiler is the result of the most advanced knowledge and technologies in the field of competition motorcycling, and has been designed and manufactured entirely in Barcelona. The GP front spoiler for the BMW S1000RR has been specially designed to enhance your BMW with the most advanced technology in the field of aerodynamics, a direct legacy of high competition such as the MotoGP world championship. Entirely designed and manufactured in Barcelona under the latest technology, the GP front spoiler is made of high-quality 4mm PMMA, a material highly resistant to impacts, splashes and UV. Its special design guarantees maximum safety thanks to the 2mm radius rounded edges. Puig offers the possibility of customizing the spoilers, being able to choose from a wide range of colors. And if the customer wishes, the Puig adhesive kit can be added, which includes the product in the colors blue and red. The piece is easily assembled, no more than 15 minutes, and does not require specific mechanical knowledge or special tools. Fixing through small metal supports and rubber pieces designed by the house. It does not require drilling the original fairing of the motorcycle. There are many benefits that the spoiler produces on your motorcycle, among which +7.8 Kg of Downforce on the front axle, anti-shimmie effect at high speeds and anti-wheelie effect stand out. We can also enjoy greater stability in changes of direction.

Product Description

PUIG WINDSHIELD R-RACER Dark Smoke 3759F

The line of screens is the product of Puig’s long experience in competition, working with the best teams from MotoGP: Repsol Honda Team and also WSBK: Kawasaki Racing Team, to

develop the best screens for your sports motorcycle. The screens are designed for you to have a perfect vision through and to be more aerodynamically efficient than the stock screens, they are tested in a virtual wind tunnel to improve the aerodynamic coefficient (Cx) and thanks to their taller height, it deflects the wind that otherwise would hit the rider’s helmet and shoulders. Designed and manufactured in Barcelona, with the most advanced technologies, with high impact acrylic of 3mm, we come up with a very strong piece, light, durable and with a rounded edge of 2mm (accomplishing the safety control from the German TÜV). The artificial vision system utilized during the quality control process guarantees that the screens will get to the client in perfect shape. Installation of the screen doesn’t require additional parts like trims and every screen comes with an in depth aerodynamic study that indicates the improvement in performance as well as the protection to the rider.
